PROFILE INFO

I am an enthusiastic web developer and intermediate-level programmer with extensive knowledge in Data Structures and Algorithms. Strong creative, leadership, and problem-solving.

EXPERIENCE

Coding Ninjas   **2022**
Codestudio Problem Solving

- On the great portal CodeStudio, I solved countless Data Structures and Algorithms issues.
- **On CodeStudio, I am now ranked 5th on my school in November, and 189th overall among all students.**
- By completing 3000 points and answering 60questions, I've earned 5 badges and am presently on level 5 (champion).
- Gained technical knowledge on how to reduce time complexity and how to address a certain problem in a more space and time efficient manner.

Web Development   **2022**

- As a frontend paid project, I have created an interactive website for an online bookstore which is upload on Github via Singhal Book Store.
- Creating a musical website with which users engage like a Spotify network using Netflix cloning.

Video Editing And Content Writing   **2022**

- Working on our own YouTube channel to create interactive videos about web development and coding.

MY SKILLS & EXPERTISE

HTML/CSS

Web Design

Video Editing

JAVASCRIPT

C/C++/JAVA

DSA with c++

ACHIEVEMENTS

- With a cgpa of 9.21, I received a good rank in my first year of college in the Btech programme.
- In my first year of college, I cleared and certified round 1 of the India online coding competition organised by filpkart.
